1. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: The light-to-heat conversion layer is any one of the upper electrode and the lower electrode in claim 42.

2. Claims 11-49 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 11, line 4, the phrase "a reconfigurable light-emitting device" is unclear whether it is a device similar to the organic light-emitting device in the preamble.

Claim 11, line 7, the phrase "the reconfigurable organic light-emitting layer" is unclear whether it is being referred to "the layer of the reconfigurable organic light-emitting device".

Claim 12, lines 1-2, the phrase "the layers of the reconfigurable organic light-emitting device" is unclear because claim 11 only discloses a layer of the reconfigurable organic light-emitting device.

Claim 15, line 2, claim 16, line 2, claim 17, line 2, the phrase "the organic light-emitting layers" is unclear as to where are they being formed in the reconfigurable organic light-emitting device.

Claim 20, line 7, claim 36, line 6, the phrase "a reconfigurable organic light-emitting device" is unclear because whether it is a device similar to the organic light-emitting device in the preamble

Art Unit: 2811

3. Claims 11, 20 and 36 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

4. Claims 1-10 are allowed.
